

Lie/Bet Questionnaire

The Lie/Bet Questionnaire¹ is a two question screening tool for pathological gambling. The two questions were selected from the DSM-IV criteria for pathological gambling because they were identified as the best predictors of pathological gambling.

The Lie/Bet Questionnaire is useful in determining if a longer screening tool or further assessment is appropriate.

Lie/Bet Questionnaire:

1. Have you ever had to lie to people important to you about how much you gambled?
2. Have you ever felt the need to bet more and more money?
